WEB DEVELOPER

I am a skilled and enthusiastic Web Developer with a strong foundation in frontend skills and a passion for coding. With years of experience in web development solutions, I have a solid understanding of fundamental programming concepts such as data structures, algorithms, and object-oriented programming. I have experience working with popular Frontend tools like:- HTML, CSS, Bootstrap, Javascript and React Js. I am also very familiar with Python web framework Django. I have done numerous projects on Website designing and building. I have also done training in graphic designing as well as UI/UX designing so I also have clear concept about designing tools. I am very hardworking and a good learner. I have ability to deal with the people and I can work under any pressure.

PROJECTS

E-commerce Website

Developed a fully functional e-commerce website using HTML, CSS, JavaScript and Django, allowing users to browse products, add items to cart, and complete the checkout process. Integrated payment gateway for secure transactions and implemented responsive design for optimal viewing on various devices.

Portfolio Website

I have designed and developed a personal portfolio website to showcase my skills, projects, and experience.

Travel Booking Website

I have created a visually stunning and user-friendly UI/UX for a travel booking website. Utilized a mobile-first approach to prioritize responsive design and implemented features such as advanced search filters, interactive maps, and personalized recommendations

File uploader using Django

I have created a file uploader frame where user can upload their files according to their requirement.
